The holder of the ISO13485 certificate referenced above provides sterilisation services at some or all of the certified locations.

Assessments to achieve and maintain certification at the certified locations are conducted by qualified BSI microbiologists. These assessments include verification that the quality system complies with the full requirements of applicable harmonised sterilisation standards relevant to health care products.

The information provided in this document summarises the harmonised sterilisation standards implemented within the quality system at each certified location. All certified locations have been assessed and found to comply with the full requirements of the harmonised standards specified in the table below.

BSI Assurance UK Limited, BSI The Netherlands B.V. and BSI Americas Inc. apply identical processes for the audit and ISO13485 certification of sterilisation service providers, including certification scheme and competency requirements. Audits are conducted by technical specialists qualified in the field of microbiology.

Should you have any questions regarding the information included in this document, please contact me or BSI's dedicated certificate verification team at Certificate.Verification@bsigroup.com.
